

Please leave the Indiana Telephone Privacy Law alone, its just fine ,as its written at present.

I used to get about 14 phone calls,a day or evening,with lots of hang-ups,and a couple of times I would get some very nasty people calling to sell me something,and they couldn't take NO!for an answer.

Why?do you have to change something that works,for we average people out here?

Please.leave well enough alone!!Thank,You--Mary Mayes
